Ken Carle, Vice President

1. Rineco Industries ensures that each container is "empty" by the relevant Resource Conservation and Recovery Act and Hazardous Waste Management Code Regulatory standards prior to processing.
2. Rineco Industries manages residue (ash) from Container Decontamination Unit into waste derived fuel for ultimate destruction through energy recovery at cement kilns.
3. Based on industry estimates of an average of 50 lbs. per 55 gallon steel drum.
4. The scrap metal is typically shredded, bundled, or otherwise processed by the scrap metal brokers in a manner to facilitate use by manufacturing facilities as a raw material in their
